

ENERGY ISLES LTD

WIND FARM

YOUR OPINION COUNTS

In response to the feedback we received on the initial wind farm design presented at our public exhibition in June 2018, Energy Isles has modified the final design to include the removal of 21 wind turbines. The new layout reduces the impact on peat, nesting birds and the visual impact from key receptors.

1 Did you attend the last Energy Isles Wind Farm exhibition?

 YES NO

2 Do you consider the design modification to be a positive or negative change?

 YES, this is an improvement NO, this is not an improvement

Please explain why:

3 Which of the following best describes your views on the Energy Isles Wind Farm?

 I am neither supportive nor unsupportive I am strongly supportive I am opposed I am supportive I am strongly opposed
